Mortality Among MDR-TB Cases: Comparison with Drug-Susceptible Tuberculosis and Associated Factors  
PONE-D-14-34677R3

Dear Dr. Chung-Delgado,

After careful consideration, we are pleased to inform you that your manuscript will likely be suitable for publication once it meets the journal's final technical requirements.

Before your submission can be formally accepted and proceed to production, you will need to address all formatting changes as requested. These required modifications will be provided in a follow-up e-mail that you will receive within one week. Your manuscript will not be scheduled for publication until you have made these required changes.

In the meantime, please log into Editorial Manager at <http://www.editorialmanager.com/pone/>, click the "Update My Information" link at the top of the page, and update your user information to ensure an efficient production and billing process.

With kind regards,

Joan A Caylà, PhD, MD

## 4.2 'Artwork Quality Control'

### Artwork Quality Results - Submission PONE-D-14-34677 "Mortality Among MDR-TB Cases: Comparison with Drug-Susceptible Tuberculosis and Associated Factors"

If your uploaded figure displays a fail message, this indicates that the figure may not meet the journal's production standards. For more information about our requirements, please see our figure guidelines at: <http://www.plosone.org/static/figureGuidelines.action>. If you still have questions after reading the guidelines, you may contact us at [figures@plos.org](mailto:figures@plos.org) for further assistance. In order to replace a figure, click 'Edit Submission' on the prior page.

**If you are unable to provide production ready figures at this time, you may continue to submit your paper but please be aware that it may not be optimal for review and if your paper is accepted, production ready figures will be required to replace the existing files.**
